

MAC series Supermini Purifying Unit

It is a kind of air purifying product improving clean class of part environment. Simple air clean benches, clean laminar booths, clean pass boxes and garment storage cabinets are made in use of supermini purifying unit.

Characteristics:

1. high efficiency filter and fan inside.
2. the clean class of air outlet is up to class 100.
3. low noise and low power consumption.
4. the position is flexible and convenient.

Technical Parameter

Type \ Project		MAC-200	MAC-500	MAC-800
Rated air Delivery(m ³ /h)		200	500	800
Wind Speed(m/s)		0.2~0.5		
Filter Efficiency		≥99.95%@≥0.5μm		
Noise		48~65dB(A)		
Power Source		Single Phase AC 200V/50Hz		
Power Consumption(W)		≤80	≤280	
Overall Dimensions (mm)	W	345	540	660
	D	345	540	660
	H	200	280	280
Specification of high efficiency filter(mm)		305×305×50	484×484×50	610×610×50
Weight(Kg)		10	32	40
